1 Identification

· Product identifier

· Trade name: VINSOL® Resin
· Product Description: rosin

· Article number: 108684, 108685, 108683, 108687, 105409, 134059, 161983

· Application of the substance / the mixture
  Air entraining agent in cements, mortars, and concrete to improve strength, workability, and freeze thaw resistance. 
  Asphalt emulsifier for anionic, slow setting emulsions for paving, surfacing, and sealing applications. 
  Adhesives and sealants 
  Inks and coatings 
  Binder in paperboard and composition board 
  Foundry molds and core washes

· Details of the supplier of the safety data sheet

· Manufacturer/Supplier:
  Pinova Incorporated 
  2801 Cook Street 
  Brunswick, Georgia 31520 
  msds@pinovasolutions.com

· Information department:
  Pinova, Inc. - Regulatory Affairs Department 
  msds@pinovasolutions.com

· Emergency telephone number:
  Within USA and Canada: 1-800-CHEMTREC (424-9300) 
  Outside the USA and Canada: 1-703-527-3887

2 Hazard(s) identification

· Classification of the substance or mixture

  GHS07

  Skin Sens. 1 H317 May cause an allergic skin reaction.

  Combustible Dust GHS11 May form combustible dust concentrations in air.

· Label elements

· GHS label elements
  The substance is classified and labeled according to the Globally Harmonized System (GHS).

· Hazard pictograms

  GHS07

· Signal word Warning

(Contd. on page 2)
Hazard statements
H317 May cause an allergic skin reaction.
May form combustible dust concentrations in air.

Precautionary statements
P202 Do not handle until all safety precautions have been read and understood.
P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P234 Keep only in original container.
P243 Take precautionary measures against static discharge.
P261 Avoid breathing dust/fume/gas/mist/vapors/spray
P264 Wash thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P280 Wear protective gloves / eye protection.
P284 In case of inadequate ventilation wear respiratory protection.
P301+P312 If swallowed: Call a doctor if you feel unwell.
P301+P330+P331 If swallowed: Rinse mouth. Do NOT induce vomiting.
P302+P352 If on skin: Wash with plenty of soap and water.
P304+P312 IF INHALED: Call a doctor if you feel unwell.
P304+P341 If inhaled: If breathing is difficult, remove person to fresh air and keep comfortable for breathing.
P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P314 Get medical advice/attention if you feel unwell.
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P363 Wash contaminated clothing before reuse.
P402+P404 Store in a dry place. Store in a closed container.
P403+P233 Store in a well-ventilated place. Keep container tightly closed.
P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Information pertaining to particular dangers for man and environment:
DANGER!
HOT MOLTEN product: Burns may cause irreversible eye injury and blindness. Causes skin burns. Inhalation of smoke or fumes may cause throat discomfort, coughing, or breathing difficulty. Product may burn if ignited.
WARNING!
Solid product at ambient temperature. Static charges generated by emptying package in or near flammable vapors may cause a flash fire. May form flammable dust-air mixtures. May cause eye irritation by mechanical abrasion. May cause skin irritation by mechanical abrasion. Inhalation of dust may cause respiratory tract irritation. May cause allergic skin reaction (sensitization) in susceptible individuals.
POTENTIAL HEALTH EFFECTS
Prolonged exposure to smoke or fumes generated by heating this product may cause respiratory irritation with throat discomfort, coughing, or breathing difficulty. Repeated exposure may lead to respiratory sensitization (asthma) in susceptible individuals.
Refer to SDS Section 8, Exposure Controls/Personal Protection, for further information.
Refer to Section 5 for Hazardous Combustion Products, and Section 10 for Hazardous Decomposition/Hazardous Polymerization Products.
Safety Data Sheet
acc. to OSHA HCS

Trade name: VINSOL® Resin

Classification system:
NFPA ratings (scale 0 - 4)
- Health = 0
- Fire = 1
- Reactivity = 0

HMIS-ratings (scale 0 - 4)
- Health = 0
- Fire = 1
- Reactivity = 0

Other hazards

Results of PBT and vPvB assessment
- PBT: Not applicable.
- vPvB: Not applicable.

3 Composition/information on ingredients

Chemical characterization: Substances
- CAS No.: 8050-09-7
- CAS No. Description: Rosin
- Index number: 002-324-75-7
- Additional information:
  If this product is heated or used at temperatures sufficient to produce smoke or fumes, refer to SDS Section 8, Exposure Controls/Personal Protection.
  This product is shipped and delivered as an ambient temperature SOLID or HOT MOLTEN liquid. THE HMIS HEALTH HAZARD RATING FOR THE HOT MOLTEN OR HOT LIQUID PRODUCT IS 3 SERIOUS. See SDS Section 2 for the HMIS health hazard rating for the product at ambient temperature.
  When shipped at elevated temperatures and delivered in HOT MOLTEN or HOT LIQUID form, refer to SDS Sections 2, 4, 5, 7 and 8 for additional hazard information.
  When shipped and delivered in solid form, this product is considered hazardous according to the OSHA Hazard Communication Standard 29CFR1910.1200 due to flammable dust potential.

4 First-aid measures

Description of first aid measures

After inhalation:
- Remove to fresh air. Get medical attention if nasal, throat or lung irritation develops.
- See Note to Physician.

After skin contact:
Trade name: VINSOL® Resin

HOT MOLTEN or HOT LIQUID product:  Immediately cool skin burns with water and cold packs for at least 15 minutes. Do NOT put ice directly on the skin. Do NOT attempt to remove solidified resin from the skin as severe tissue damage may result. Get immediate medical attention. See Note to Physician.

SOLID product at ambient temperature:  Wash thoroughly with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists. Thoroughly wash clothing before reuse.

See Note to Physician.

After eye contact:

HOT MOLTEN product:  Cool burns with plenty of low-pressure water. Get immediate medical attention.

SOLID product at ambient temperature:  Remove contact lenses. Hold eyelids apart. Immediately flush eyes with plenty of low-pressure water for at least 15 minutes. Get medical attention if irritation persists.

After swallowing:

No adverse health effects are expected from accidental ingestion of small amounts of this product. For ingestion of large amounts: Do NOT induce vomiting. Get immediate medical attention.

Information for doctor:

For HOT MOLTEN or HOT LIQUID product: Material should not be forcibly removed from the skin. Mineral oil may be used to loosen and soften the material.

This product contains rosin or a rosin derivative. Rosin and some of its derivatives have been reported to cause an allergic skin reaction (sensitization) in susceptible individuals after repeated or prolonged skin contact. Smoke or fumes generated by heating product may lead to respiratory sensitization (asthma) in susceptible individuals.

Most important symptoms and effects, both acute and delayed

No further relevant information available.

Indication of any immediate medical attention and special treatment needed

No further relevant information available.

5 Fire-fighting measures

Extinguishing media

Suitable extinguishing agents:
Water spray, dry chemical, foam, carbon dioxide or clean extinguishing agents may be used on fires involving this product.

Special hazards arising from the substance or mixture

If heated to combustion, the following substances may be formed:
Carbon monoxide (CO)
Carbon Dioxide (CO₂)
Aldehydes
Carboxylic acids
Smoke

Advice for firefighters

Protective equipment:
Wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH approved (or equivalent) and full protective gear when fighting fires involving this product.

Apply water to HOT MOLTEN or HOT LIQUID resin fires from a safe, protected location to avoid body contact with hot resin.
6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**
  For HOT MOLTEN or HOT LIQUID product: Wear protective equipment as required (see SDS Section 8). Contain spilled material and allow it to cool and solidify. Do NOT apply water. After solidification, clean up and place in suitable containers for use or disposal. 
  For SOLID product: Ventilate area. Avoid dust formation. If product is not contaminated, scoop into clean containers for use. If product is contaminated, scoop into containers, and dispose appropriately. In case of accidental spills or release, refer to Section 8, Personal Protective Equipment and General Hygiene Practices.
- **Environmental precautions**: Do not allow to enter sewers/surface or ground water.
- **Methods and material for containment and cleaning up**: Dispose of the collected material according to regulations. Pick up mechanically.
- **Reference to other sections**
  See Section 7 for information on safe handling. 
  See Section 8 for information on personal protection equipment. 
  See Section 13 for disposal information.
- **Protective Action Criteria for Chemicals**
  - PAC-1: Substance is not listed.
  - PAC-2: Substance is not listed.
  - PAC-3: Substance is not listed.

7 Handling and storage

- **Handling**:
- **Precautions for safe handling**
  For HOT MOLTEN or HOT LIQUID product: Use personal protective equipment as indicated in Section 8: Exposure Controls/Personal Protection.
  For SOLID product: 
  - Ground all equipment.
  - Blanket vessel with inert gas when emptying bags where flammable vapors may be present.
  - Ground operator and pour material slowly into conductive, grounded chute.
  - For large bags (1000 lbs or greater) a ground cable MUST be attached to the bag ground connection.
- **Information about protection against explosions and fires**:
  Water contact with HOT MOLTEN or HOT LIQUID resin may result in foaming or spattering, which can cause eye or skin burns. 
  Avoid conditions that generate dust; product may form flammable dust-air mixtures. 
  Avoid emptying package in or near flammable vapors; static charges may cause flash fire. 
  Keep away from heat, flame, sparks and other ignition sources. 
  Spontaneous heating may occur if stored in a non-ventilated area at elevated temperatures.
Trade name: VINSOL® Resin

- Conditions for safe storage, including any incompatibilities
  - Storage:
    - Requirements to be met by storerooms and receptacles:
      Store in well-ventilated area at ambient temperatures.
      Keep container closed when not in use.
      Use oldest material first.
  - Information about storage in one common storage facility: Not required.
  - Further information about storage conditions: None.
  - Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- Additional information about design of technical systems:
  Eyewash fountains and safety showers should be easily accessible.
  If user operations generate dust or fumes: Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Discharge from the ventilation system should comply with applicable air pollution control regulations.
  Eliminate ignition sources and prevent build-up of static electrical charges.
  Completely isolate and thoroughly clean all equipment, piping, or vessels before beginning maintenance or repairs.
  Keep area clean. Product will burn.

- Control parameters

  - Components with limit values that require monitoring at the workplace:
    CAS: 8050-09-7 rosin (100%)

    TLV SEN; L

  - Additional Occupational Exposure Limit Values for possible hazards during processing:
    This product may present an inhalation health hazard if used under conditions that could generate dust or fumes.
    PARTICULATES (INSOLUBLE) NOT OTHERWISE SPECIFIED (PNOS): If used under conditions that generate particulates, the ACGIH TLV-TWA of 3 mg/m3 respirable fraction (10mg/m3 total) should be observed.
    ROSIN PYROLYSIS FUMES: If this product is heated to temperatures sufficient to produce smoke or fumes, maintain exposure to resin acids to the lowest achievable concentration using recommended engineering controls and personal protective equipment.

- Exposure controls

  - Personal protective equipment:

    - General protective and hygienic measures:
      Avoid contact with eyes, skin, and clothing.
      Avoid breathing dust or fumes.
      Handle in areas with adequate ventilation.
      Avoid contamination of food, beverages, or smoking materials.
      Wash thoroughly after handling, and before eating, drinking or smoking.
      Remove contaminated clothing promptly and clean thoroughly before reuse.
46.0.19

· Breathing equipment:
  Appropriate respiratory protection is required when exposure to airborne contaminants may exceed acceptable limits. Respirators should be selected and used in accordance with OSHA, Subpart I (29 CFR 1910.134) and manufacturers recommendations.

· Protection of hands:
  Impervious gloves

  ![Protective gloves]

  The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material should be made based on consideration of the penetration times, rates of diffusion and the degradation.

· Material of gloves
  The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

· Penetration time of glove material
  The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye protection: Safety glasses

· Body protection:
  Appropriate protective clothing
  Personnel exposed to HOT MOLTEN or HOT LIQUID material should wear protective clothing that provides protection against thermal burns. Required Protective Equipment: a) Longsleeved protective shirt, long pants and work shoes; b) Hard hat and face shield; c) Long-cuff gloves (Gauntlet type- extending beyond wrist); d) Lined rain suit with protective hood or shoulder shroud or e) Full aluminized or thermal suit with hood.

---

9 Physical and chemical properties

· Information on basic physical and chemical properties
  · General Information
  · Appearance:
    - Form: Flakes
    - Color: Dark brown
    - Odor: Pine
    - Percent Volatile: Negligible at 20 °C
    - Specific Gravity: 1.22 @ 25 °C
  · Change in condition
    - Softening Point: 103-123 °C (217.4-253.4 °F)
    - Boiling point/Boiling range: >300 °C (>572 °F)
  · Flash point: >200 °C (>392 °F) (Cleveland Open Cup)
  · Ignition temperature: 470 °C (878 °F)
Trade name: VINSOL® Resin

· Danger of explosion: Product is not explosive. However, formation of explosive air/dust mixtures are possible.
· Density: Not determined.
· Bulk density at 20 °C (68 °F): 560 - 640 kg/m³
· Solubility in / Miscibility with Water: 0.13 mg/L
· Other information No further relevant information available.

10 Stability and reactivity
· Reactivity No further relevant information available.
· Chemical stability
· Thermal decomposition / conditions to be avoided: Stable under recommended handling and storage conditions.
· Possibility of hazardous reactions Not anticipated under normal or recommended handling and storage conditions.
· Conditions to avoid No further relevant information available.
· Incompatible materials: None known.
· Hazardous decomposition products: If this product is used at elevated temperatures, it may generate combustion products. Refer to SDS Section 5, Hazardous Combustion Products.

11 Toxicological information
· Information on toxicological effects
· Acute toxicity:
· LD/LC50 values that are relevant for classification:
PRODUCT/SIMILAR PRODUCT -
Ninety-day oral subacute no effect level (rat): NOEL = 0.2-1.0% in diet. Signs of toxicity included refusal to eat, weight loss and death at highest level, depressed weight gain and liver enlargement.
Two-year chronic oral no effect level (rat, dog): NOEL = 0.05% in diet. Signs of toxicity included temporary weight depression and liver enlargement in both species.

· Primary irritant effect:
· on the skin: No irritant effect.
· on the eye: The fine particles and powder should be regarded as an inert, nuisance dust.
46. Sensitization:
Due to the physical nature of this material, may cause eye, skin and respiratory irritation. This product contains rosin or a rosin derivative. Rosin and some rosin derivatives have been reported to cause allergic skin reaction (sensitization) in susceptible individuals after repeated or prolonged contact. Smoke or fumes generated by heating may lead to respiratory sensitization (asthma) in susceptible individuals.

47. Additional toxicological information:
No mutagenicity studies have been carried out with this product.

48. Carcinogenic categories
- IARC (International Agency for Research on Cancer) Substance is not listed.
- NTP (National Toxicology Program) Substance is not listed.
- OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.

12 Ecological information

49. Toxicity
- Aquatic toxicity:
  - Acute 96-hour LL50 (Fathead minnow): > 1000 mg/l.
  - Acute 48-hour EL50 (Daphnia magna): 911 mg/l.
  - NOEL: 750 mg/l.
  - Algae growth inhibition test (72-hour EL50): > 1000 mg/l

50. Persistence and degradability
Based upon data from this or similar materials, this product cannot be regarded as readily biodegradable; however, it may be slowly biodegradable.

51. Behavior in environmental systems:
- Bioaccumulative potential No further relevant information available.
- Mobility in soil No further relevant information available.
- Additional ecological information:
- General notes:
  Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

52. Results of PBT and vPvB assessment
- PBT: Not applicable.
- vPvB: Not applicable.

53. Other adverse effects
No further relevant information available.

13 Disposal considerations

54. Waste treatment methods

55. Recommendation:
For SOLID and HOT MOLTEN product that has been cooled and solidified: Landfilling in a permitted solid or hazardous waste facility is recommended. Handling, transportation, and disposal of material should be conducted in a manner to prevent a nuisance dust hazard. Fully containerize the material before handling, and protect from exposure to the outdoors. Ensure there are no restrictions on disposing of bulk or semi-bulk quantities of waste material. Disposal should be in accordance with all Federal, State and local regulations.

- **Uncleaned packagings:**
  - **Recommendation:** Disposal must be made according to official regulations.

**Transport/Additional information:**

- **DOT**
  - **Remarks:**
    - HOT MOLTEN or HOT LIQUID product: This product is subject to the hazardous materials regulations. For specific information regarding transportation of this product, please contact the Pinova representative at 912-265-3550 x3200.
    - SOLID at ambient temperature: This product is NOT subject to DOT regulations.

- **UN "Model Regulation":** Void
15 Regulatory information

- Safety, health and environmental regulations/legislation specific for the substance or mixture
- Sara
- Section 355 (extremely hazardous substances): Substances is not listed.
- Section 313 (Specific toxic chemical listings):
  This product does not contain any chemicals subject to reporting under Section 313 of Title III of the Superfund Amendments and Reauthorization Act and 40CFR372.

- SECTIONS 302/304
  This product is not an Extremely Hazardous Substance subject to reporting under 40CFR355.
- SECTION 311 AND 312
  HC-1: Acute health hazard
  HC-3: Fire hazard
- CERCLA
  This product does not contain any chemicals subject to reporting as a CERCLA Hazardous Substance under 40CFR302.4.
- RCRA
  This product is not a hazardous waste as listed in 40CFR261.33. It does not exhibit any of the hazardous characteristics listed in 40CFR261, Subpart C.
- TSCA (Toxic Substances Control Act): Substance is listed.
- Proposition 65
- Chemicals known to cause cancer: Substance is not listed.
- Chemicals known to cause reproductive toxicity for females: Substance is not listed.
- Chemicals known to cause reproductive toxicity for males: Substance is not listed.
- Chemicals known to cause developmental toxicity: Substance is not listed.
- New Jersey Right-to-Know List: Substance is not listed.
- New Jersey Special Hazardous Substance List: Substance is not listed.
- Pennsylvania Right-to-Know List: Substance is not listed.
- Pennsylvania Special Hazardous Substance List: Substance is not listed.
- Carcinogenic categories
- EPA (Environmental Protection Agency) Substance is not listed.
- TLV (Threshold Limit Value established by ACGIH) Substance is not listed.
- NIOSH-Ca (National Institute for Occupational Safety and Health) Substance is not listed.
- Canadian substance listings:
- Canadian Domestic Substances List (DSL) Substance is listed.
- Canadian Non-Domestic Substances List (NDSL) Substance is not listed.
- GHS label elements
  The substance is classified and labeled according to the Globally Harmonized System (GHS).
- Hazard pictograms

![GHS07]

- Signal word Warning

(Contd. on page 12)
Hazard statements

H317 May cause an allergic skin reaction.
May form combustible dust concentrations in air.

Precautionary statements

P202 Do not handle until all safety precautions have been read and understood.
P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P234 Keep only in original container.
P243 Take precautionary measures against static discharge.
P261 Avoid breathing dust/fume/gas/mist/vapors/spray
P264 Wash thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P280 Wear protective gloves / eye protection.
P284 In case of inadequate ventilation wear respiratory protection.
P301+P312 If swallowed: Call a doctor if you feel unwell.
P301+P330+P331 If swallowed: Rinse mouth. Do NOT induce vomiting.
P302+P352 If on skin: Wash with plenty of soap and water.
P304+P312 IF INHALED: Call a doctor if you feel unwell.
P304+P341 If inhaled: If breathing is difficult, remove person to fresh air and keep comfortable for breathing.
P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P314 Get medical advice/attention if you feel unwell.
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P363 Wash contaminated clothing before reuse.
P402+P404 Store in a dry place. Store in a closed container.
P403+P233 Store in a well-ventilated place. Keep container tightly closed.
P501 Dispose of contents/container in accordance with local/regional/national/ international regulations.

Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

DISCLAIMER: The information and recommendations contained in this Safety Data Sheet have been compiled from sources believed to be reliable and to represent the most reasonable current opinion on the subject when the SDS was prepared. No warranty, guaranty or representation is made as to the correctness or sufficiency of the information. The user of this product must decide what safety measures are necessary to safely use this product, either alone or in combination with other products, and determine its environmental regulatory compliance obligations under any applicable federal or state laws.
